PHOTO INSTRUCTIONS FOR U.S. PASSPORTS

You must submit with your application two (2) identical photographs of you alone, sufficiently recent to be a good likeness (taken within the last 6 months). They are to be 2 by 2 inches (5 by 5 cms) in size, with an image size from the bottom of chin to top of head (including hair) of between 1 and 1-3/8 inches (**see diagram**). The photographs must be clear, front view, full face taken in normal street attire without a hat or dark glasses, and printed on thin, preferably non-glossy photographic paper, with a plain light (or off-white) background and no borders. **They must be in color.** They must be capable of withstanding a mounting temperature of 225 degrees Fahrenheit (107 degrees Celsius). **They must also resist light, dampness and must be long-lasting**. They must not be over-exposed. **Features must clearly appear**. Photographs retouched so that your appearance is changed are unacceptable.

If the photographs submitted do not meet the above requirements, the Consulate General will be unable to issue a passport. **Snapshots and vending machine prints are not acceptable. Digitalized photographs are not acceptable**.

The list of photographers below has been prepared for your convenience. All **are aware of the photograph requirements for passports issued at Marseille**. The Consulate General, however, assumes no responsibility for the integrity of their work.

Marseille
